Inserting Approval Notation:

Once you have received approval from the contacts listed above. Insert this information into the "Approval Information" field at the check-out screen.

1. In the first text box enter the approval information provided to you.
2. In the second box, notate the associated supplier.
3. In the third box, notate the amount.

You only need to complete those three items for jobs you are creating on the self-serve side of hyble. This should occur prior to submitting the job for approval on the self-serve side of hyble.

For custom jobs, after the job is submitted and once you receive the vendor recovery estimate from hyble you can make any approval notations by going to your "submitted custom jobs" area and editing the approval information. Complete all three boxes for each supplier on the job as needed.

These approvals are additional, and the print job will still go through the normal approval process by your immediate manager.

If your manager would like any of the approval information edited, they can do so before approval or any time before the job is complete and ships. **Please keep any approval email confirmations as back up documents if requested by leadership.**

You can also make any adjustments as needed inside your completed orders tab.

Approval notations will be monitored monthly to ensure adherence to the policy.
