**Based on a 2 view – 4.25" x 11" Menu Book price*

01 Menu Book **Ordering**

Step 1

Format, Size & Material

When picking the format, size and material for your menu book, keep in mind the below terminology to best request what it is you are looking for.

Size

All sizing refers to the **insert** dimensions, not the actual cover size of the menu book. Please use the insert size when placing your menu book order (w" x h").

Example -

8.5" x 11" - 3 Panel 4 View Black Leatherette

Panels

Panels refers to the physical solid boards that hold the actual menu inserts. The more panels you have, the more viewing areas will be displayed.

Ex: 3 Panel / 4 View Black Leatherette book has 3 physical solid boards and will hold 4 displayed menu inserts.

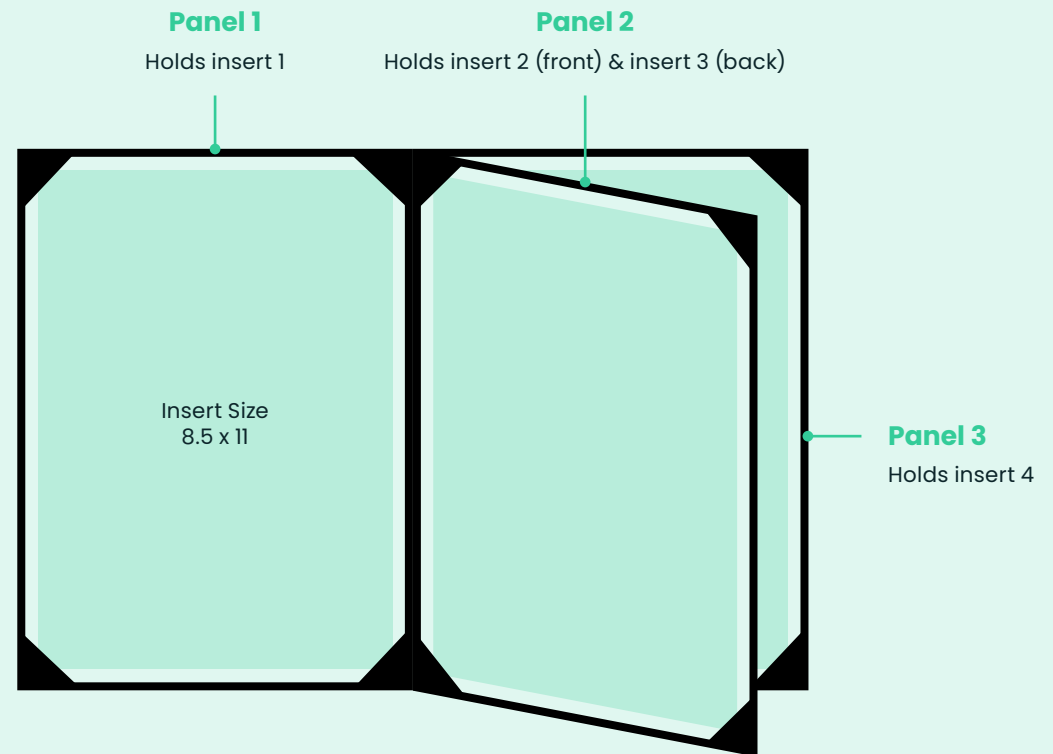

Views

Views refers to the number of menu inserts you need displayed. Not to be confused with panels - the viewing areas are the number of inserts going in the book.

Ex: 4 Panel / 6 View Black Leatherette book has 4 physical solid boards and will hold 6 displayed menu inserts.

Material

The material refers to the exterior of the menu book. For more information on our material offerings, see Sections 2 and 3 in this catalog.

Step 2

Logo / Decoration Options

If you would like a logo / decoration to be stamped onto the menu book, we offer a variety of different applications:

BLIND DEBOSS (\$)

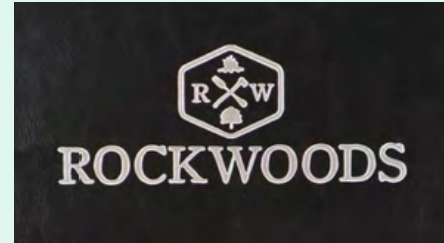

An imprint of the logo pressed into the material without any color fill to enhance the natural texture of the material

DEBOSS WITH SCREEN PRINT (\$)

Debossed and filled with ink, this process ensures the ink sits just below the surface, reducing the risk of wear over time.

SCREEN PRINT (\$)

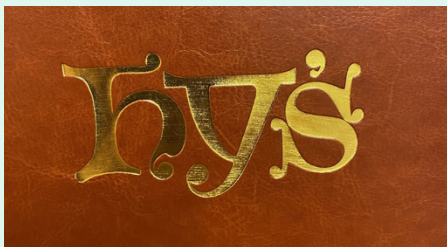

Screen printing, without debossing, is ideal for use on rigid materials such as Bullet Board, Wood, Bamboo, and Acrylic.

BURNISH (\$)

Similar to Blind Deboss, but with added heat to darken the logo, making it stand out for certain materials.

FOIL STAMP (\$)

Foil stamped directly onto the material, this technique is perfect for achieving a metallic look and feel.

LITHO PRINT (\$\$)

Printed on paper, laminated, and wrapped over a board. Offers a fully custom look for menu books and within die-cut windows.

UV PRINT (\$\$\$)

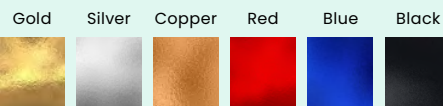

A 4 color process printed directly on the material. A great option for full color logos. Not available on stock books.

EMBOSS (\$\$\$\$)

Embossing creates a raised logo and is available on Copper and Brushed Aluminum materials.

Available Colors:
(Custom colors also available upon request)

See next page for more options →

Step 2

Logo / Decoration Options (cont.)

We also offer the option to do a die-cut window on the cover of the menu book. See below for these options:

LITHO (\$)

ALUMINUM (\$\$)

BULLET BOARD (\$\$\$)

WOOD (\$\$\$)

BAMBOO (\$\$\$)

COPPER (\$\$\$\$)

MEDALLION (\$\$\$\$)

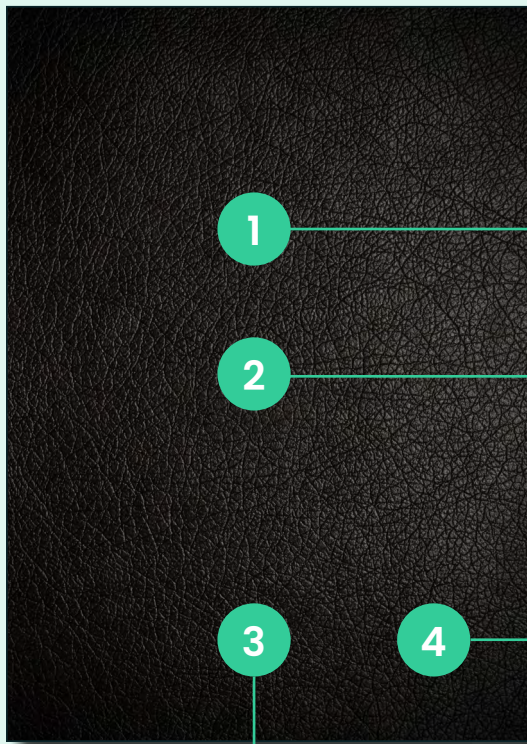

Step 2

Logo / Decoration Options (cont.)

When requesting a logo / decorative option to be included on the cover of your menu book, keep in mind the below terminology to best request what it is you are looking for.

Logo / Decoration Positions

1

Optical Center

Strategically positioning the logo slightly above the actual center creates visual balance, seeming centered to the human eye.

2

Dead Center

Placing the logo in the middle grabs immediate attention, acting as a focal point for the menu's visual appeal

3

4

Lower Right Corner

A bottom-right logo placement complements natural reading flow, subtly signifying closure while reinforcing brand recognition without overpowering the content.

Dead Center Bottom

Placing the logo at the bottom center anchors the menu, offering a subtle yet prominent brand presence.

Upload logo

Provide a Vector or High Resolution Logo

Using anything other than a vector or high-resolution logo may affect the final quality.

If you have a low-quality logo, don't worry – we offer a logo recreation service for an additional fee. Feel free to inquire with our team for more details.

**please note account logos are not compliant for menu book covers in all states.*

Step 3

Menu Inserts

You are required to have menu inserts for all menu book and accessory orders in order to complete the chargeback process. Below outlines how to best provide the insert information to us.

If menu inserts have been completed via Hyble Self Serve:

Please provide the order number.

If menu inserts have been placed as a separate Custom order:

Please provide the order number.

If menu inserts are needing to be designed and/or printed with the menu books:

Please indicate that you want to order menu inserts (design or print). Provide copy and pasteable content (ie. excel spreadsheet or Word document) of the menu items with design direction into the brief.

If you have printed the inserts elsewhere (state permitting):

Upload a pdf or a clear high resolution photograph of the menu inserts that can easily be transcribed. See examples to the right for what to watch out for when providing inserts for chargeback.

Below are **bad** examples of provided menu inserts that we **cannot** use due to illegibility:

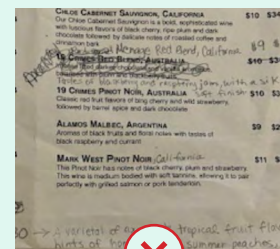

Too Far / Angled

Glares

Handwritten Amends

Shadows / Multiple Pages

Below are **good** examples of provided inserts that we **can** use:

High Res PDF / Digital File

Straight On / Clear Photo

Step 4 Proofing

Upon receiving approval, your order will enter the design queue. Please allow a minimum of 2 business days for logo proof turnaround to showcase the appearance of your menu book. During this stage, you have the chance to review and confirm the following:

Are you happy with the size and details of the logo?

Are you happy with the position of the logo?

Has the correct format size & views been used?

Are you happy with the logo color?

Step 5

Production & Shipping

Approval Confirmation

Once you approve your Menu Book proof, the order proceeds to the production phase.

Varied Production Times

Production duration varies based on factors such as size, style, and quantity. Typical production time for standard SKU undecorated items is 3–5 business days, while custom or non-standard jobs, additional time may be required.

Clear Communication

Our dedicated Custom team will always communicate the expected turnaround times when you place your order.

Quality Assurance

We're committed to crafting your orders meticulously, ensuring it meets your specifications and standards.

Feel free to contact us if you have any queries or need assistance at Help@hyblesupport.com. We're dedicated to making sure your order is handled efficiently and meets your expectations.
